

BRAKE SYSTEM FOR TRUCKS AND TRAILERS

(Approved April 11, 1961)
(Amended September 1, 1972)

Types of Approved Brakes for Trailers, Semi-Trailers or Towed Vehicles

The Superintendent of State Police has issued a blanket approval on this type device which reads:

In accordance with the provisions of Section 46.2-1070 of the Code of Virginia, the Superintendent of State Police hereby approves each braking system for trailers, semi-trailers or towed vehicles which meets the following Standards:

1. Is controlled or operated by the driver of the towing vehicle; and
2. Is composed of components, all of which meet or exceed existing SAE Standards when such standards are applicable and when SAE standards are not established, the components are operative and compatible to the braking system; and
3. Is capable of stopping the combination of vehicles being operated as provided in Section 46.2-1067 of the Code of Virginia.
